Tampa, FL, August 9, 2018 —Oakford Park Capital, Inc. (www.oakfordparkcapital.com)

a Florida Registered Investment Manager is pleased to announce the launch of Florida's First BlockChain Fund Portfolio with the completion of its first full month of operation.

The BlockChain Portfolio invests in companies seeking to leverage or benefit from Blockchain and Cryptocurrency technology. The BlockChain Portfolio invests primarily in the common stock of North American and Asian based technology, financial and consumer companies implementing Blockchain technologies and cryptocurrency support. The fund does not invest directly in cryptocurrencies, but may invest in Bitcoin futures infrequently. The minimum investment in the BlockChain strategy is \$10,000 and fees range from 1% to 2% depending on investment size.

The portfolio returned 4.34% (gross of fees) for the month of July, versus the S&P 500 North American Technology Sector Index return of 1.80%. The fund holds 30+ securities and portfolio invests in Blockchain technology, cryptocurrency financials, hydropower generation (for mining), semiconductors (mining), retail, and software. The portfolio is a Large Cap Growth Technology strategy with 62% in the Technology Sector, 20% in the Financial Sector, and the balance in Consumer Cyclical, Utilities, Communication Services, and Industrials. The Top holdings are Taiwan Semiconductor, Overstock.com, SAP SE ADR, Square, Inc., and Advanced Micro Devices.

BlockChain Technology
Portfolio

Oakford Park Capital Launches First Florida-Based BlockChain Fund Portfolio.

“Building a portfolio of companies that seek to leverage the innovations of BlockChain and CryptoCurrency, is a much more prudent way to benefit from the long term disruptive nature of these technologies,” said James G. Taylor, PhD, MBA, President of Oakford Park Capital, Inc. a Florida Registered Investment Advisor. “This strategy is a unique investment vehicle that can diversify investors’ overall portfolios over the long term.”

“Our solution gives the client a separately managed account, with a low minimum, and professional investment management without the higher transaction fees of an ETF or high minimums of other products in the marketplace,” continued Taylor, “and we are excited as we believe this is the first Florida-based firm with such an offering.”

About the Company.

Oakford Park Capital is a Registered Investment Advisor (RIA) in the State of Florida offering professional Investment Management Services to High Net Worth individuals, Accredited Investors, and Institutions. The company specializes in Equity and Fixed Income Investment Management for Institutional and Individual Clients, Blockchain Investments, and CryptoCurrency Consulting.
